- Roger E. Bilstein
- *Flight in America: From the Wrights to the Astronauts*
- *Elements: Lofty, flowing*
- *The sky-gazers looked on in astonishment as the great artificial bird bore down the heavens. . . . Wonderment, surprise, absorption were written on every visage . . . a machine of travel that combined the speed of the locomotive with the comfort of the automobile, and in addition, sped through an element until now navigated only by the feathered kind. It was, in truth, the poetry of motion, and its appeal to the imagination was evident in every upturned face."*
